

TestNG Surefire Test Report - 6/3/2026

Purpose: Raw Maven/TestNG execution evidence for CI diagnostics.

Field	Meaning
testng-results.xml	Machine-readable status for suites, classes, methods, failures, errors, and skipped tests.
emailable-report.html	TestNG summary report when generated.
surefire text files	Runner-level output and stack traces.
Skipped intentional demos	Expected when includeIntentionalFailures=false.
Stable failures/errors	Should be zero in the default allure-ui run.
